# Exercise

- Look at the following graphs. In each case try to decide
  - Is the graph conveying a clear message?
  - Does this data benefit from being shown visually?
  - Is the representation of the data appropriate?
  - Is the amount of data shown appropriate?
  - Is the use of colour and other design elements appropriate?

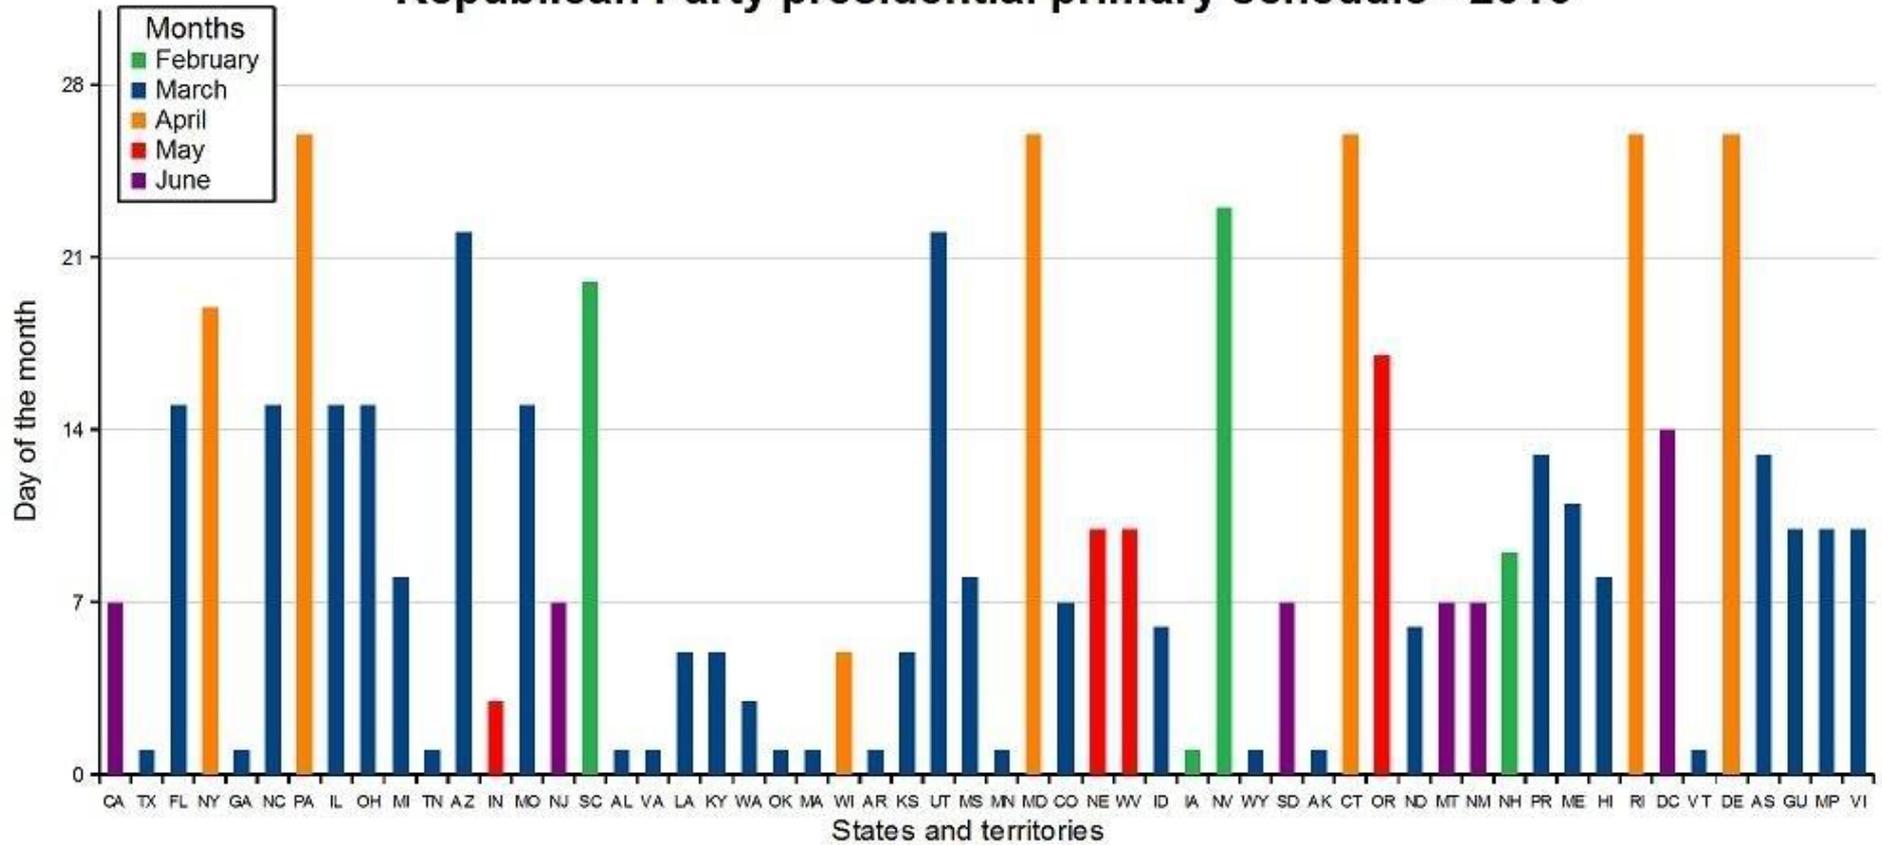

shared the well-digging skills with natives in Indonesia. The wells Zheng He's fleets dug are still used to

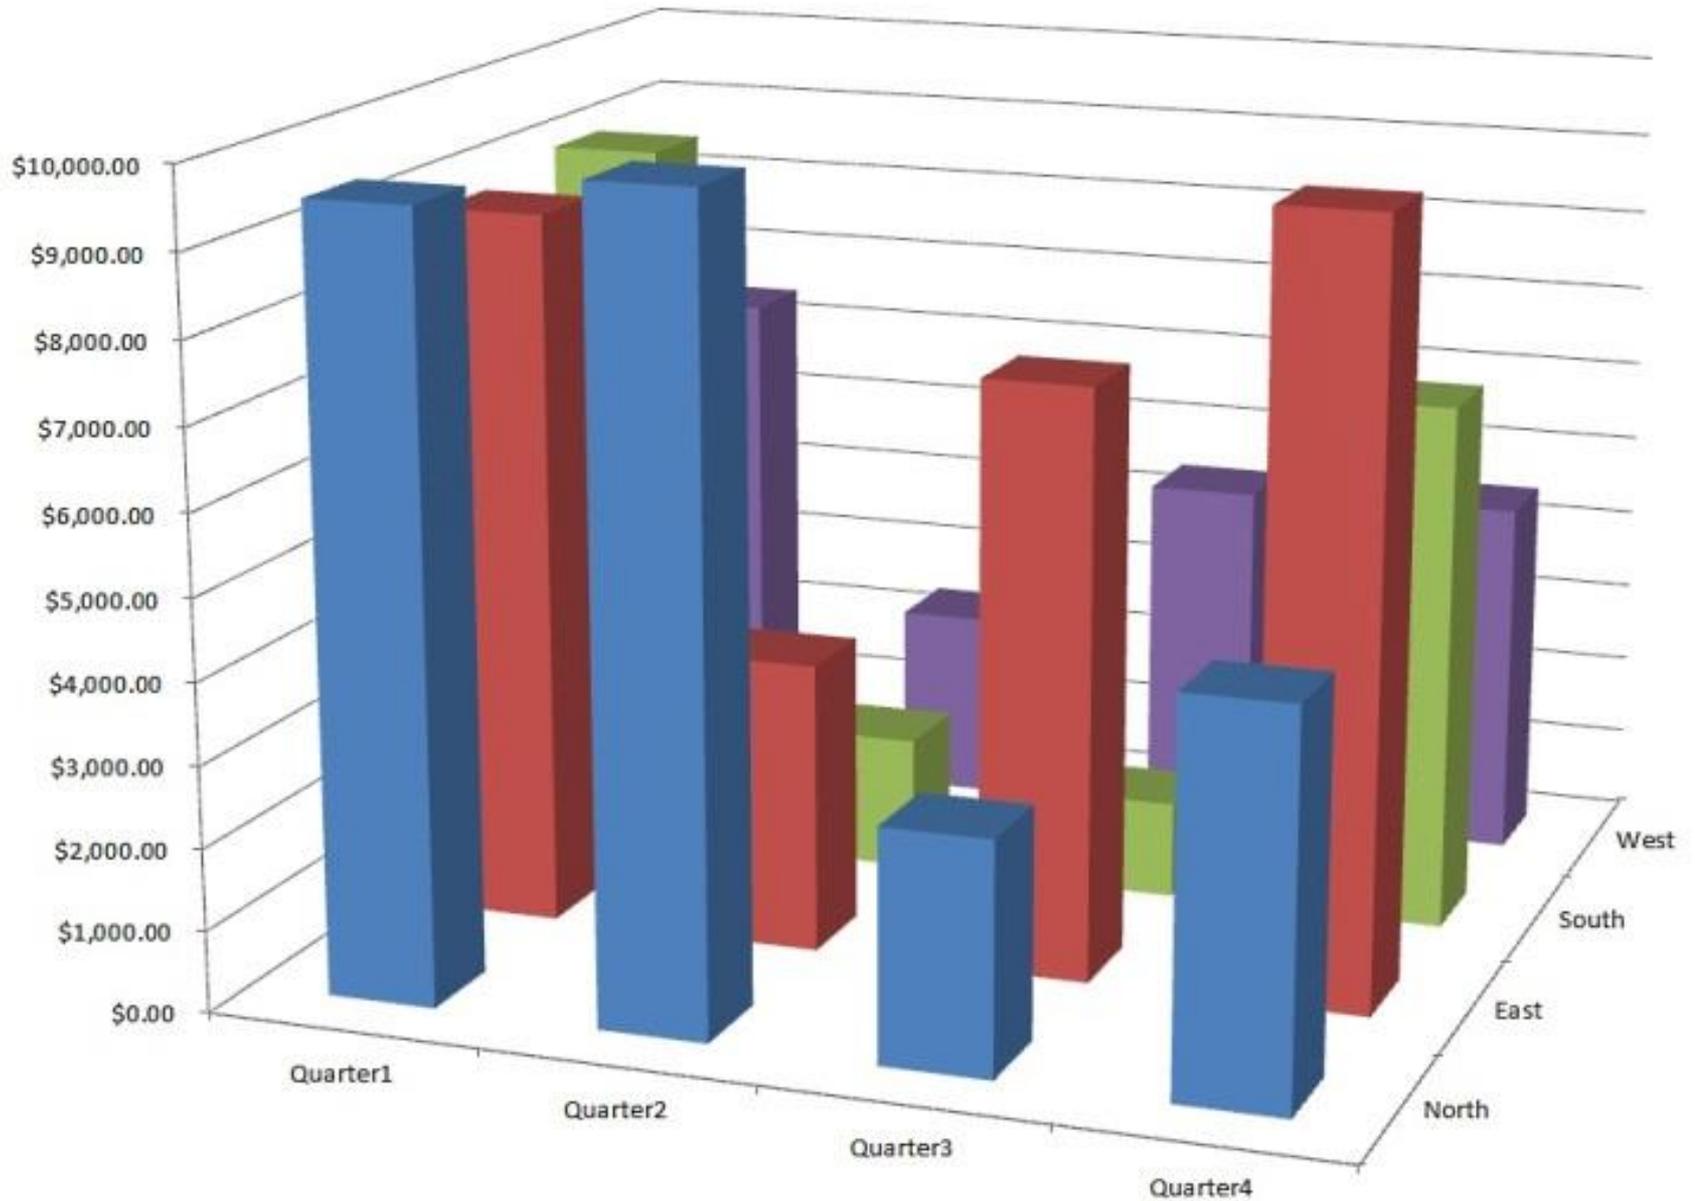

In the United States, the first law banning the use of cell phones while driving was passed in 2007. The year prior, the U.S. averaged
